

# JUNE NEWSLETTER

## A BIG Thank You!

We are now in our sixth month since MozArt Music Academy opened its doors to the SF Valley community and we must say, "It's been an incredible experience!"

We are discovering how music is an important part of our community and we want to thank you for entrusting us with your children's musical journey. It's been amazing to see our students make progress in their musical abilities. Many beginners who took music lessons for the first time are now able to read notes and play songs!

Most importantly, our warm appreciation goes out to all the moms and dads who dedicate their time and effort in bringing their children to the music lessons. It has been so inspiring to see how much you love and care for your children. We value your commitment to MozArt Music Academy and we will continue to provide the BEST music instruction that is perfectly suited for your children.

## How to Make the Most Out of Your Summer Time

Summer is here and it's our favorite season of the year! Stay well hydrated and learn lots of cool music!

**1. Extra Motivating**- Summer is a great time to take break from the routine and encourage students to learn music of their choice whether it's a song they heard on YouTube or a challenging classical piece.

**2. Improved Focus**- Without the worries of homework, sports practices, and other time consuming activities, students can devote more time and attention to their summer music lessons and practice. Better focus leads to better practice.

**3. Time for Something New**- Many of our students showed interest in learning an additional instrument during the school year. Summer is the best time to try out a new instrument or two! We offer the BEST music instructions in piano, drum, guitar, flute, violin, viola, ukulele, and singing.

**4. No Backtracking**- Playing an instrument is a learned skill and if students don't receive consistent instruction and practice during summer, it only means one thing - time to backtrack in the Fall! Everyone knows the saying, "if you don't use it, you lose it." This is true in all disciplines including learning to play an instrument. Instead of spending time refreshing memory and regaining skills in the Fall, we encourage our students to take advantage of their summer time to keep making progress.
