A Special Music Story from MozArt: "Father's Day Gift from Jordan"

One of the most rewarding parts about MozArt Music Academy is hearing each student's story behind taking on a musical journey. In July's newsletter, we would like to share a heart-warming story about Jordan, our 24-year-old piano student.

Jordan Young enrolled for piano lessons at MozArt Music Academy back in March with one goal in her mind: to finally learn her father's favorite song on the piano. Jordan took piano lessons growing up and during that time, her dad nagged her to play his favorite song on the piano for him. Being a sensitive teenage girl, she felt she wasn't good enough to play the song so she denied her dad's request without telling him the real reason. Recently she got engaged to the love of her life so Jordan wanted to make a special memory for her dad before she walked down the aisle. While having boba at Brian's Shave Ice, she saw our signage and instantly knew this was what she was looking for. Secretly, she took weekly lessons at MozArt, practiced whenever she had free time from her full-time work, and gradually put the song together for her dad. Finally, on Father's Day, Jordan's dad received the most memorable present he will cherish for a lifetime: a special piano performance from his forever "little girl" who will soon begin the next chapter in her life.
